

Hayes Knight

SMSF Audit

Keeping you connected to
your clients

Chris Hodgins
Director SMSF Services | Hayes Knight

SMSF Specialist Advisor
Registered SMSF Auditor

The SMSF Audit firm you choose reflects on your practice.

You need to be secure in the knowledge that your SMSF clients are protected – technical ability and quality, transparency, quality control and security, a seamless and scalable service, are all essential.

This is what Hayes Knight delivers.

Let's talk

We've had a great experience working with the Hayes Knight team. The audit process is seamless, communication is clear, and turnaround times are always prompt.

What really stands out is the direct access to the auditor - being able to openly discuss scenarios has been invaluable in helping our clients stay compliant and effectively manage risk."

APES 110 compliant, always

02

Efficient

Secure and streamlined cloud-based process

03

Accessible expertise

Guidance on complex SMSF compliance matters

04

Tailored

Each firm is unique, and we work with you that way

Prevention is better than cure **Support when you need it**

Auditors don't fix issues, but our expertise can help you prevent or reduce compliance risks when challenges occur.

SMSF audit issues and contraventions are the outcome of decisions taken throughout the year. It stands to reason that risk mitigation should be a process not an outcome.

Our team are available to talk through issues with you as they arise.

Competitive pricing

While we're not the cheapest, we are competitive. We're the type of auditors that your clients expect you are referring their SMSF to - efficient, professional, experienced and knowledgeable.

Pricing reflects volume and scale of the service provided.

Collaborative service model

We get it. SMSF audit and SMSF compliance are two sides of the services coin. As a full service SMSF division, we know what needs to be done to close the SMSF service delivery loop.

As your clients' SMSF auditor, we fulfil our role efficiently and with integrity while keeping your role and requirements in our peripheral vision.

Seamless client experience

Your clients receive a high-quality audit service while maintaining their primary relationship with your practice. Our role is behind the scenes to ensure audit quality without disrupting established client connections. We manage the process with efficiency and centralise communication through you.

Practice capability and integrity

Hayes Knight offers a seamless, proficient SMSF audit solution for your clients without the loss of accountability or quality that can occur at scale.

“

Hayes Knight has been our SMSF auditors for many years and we have always found them professional and pro-active. They always look to provide high levels of technical and service standards with the client in mind.

With the ATO scrutiny around SMSF audits, Hayes Knight provides us with the confidence we require for our clients.”

Sook Smith, Partner
Enspira Financial

“

I have worked with Hayes Knight for more than 10 years in auditing my self-managed super fund clients. Over this time, I have consistently found the team to be approachable, reliable, highly knowledgeable, and cost-effective. Their professionalism and expertise have provided great confidence to both myself and my clients, and I have no hesitation in recommending Hayes Knight to anyone seeking trusted SMSF audit services.”
